

Louisiana Orthopedic Surgery Center

Disclosure of Ownership

Louisiana Orthopedic Surgery Center is an ambulatory surgical center in which physicians have an ownership interest. The Center is committed to providing clinical excellence in a safe, comfortable, and welcoming environment for you and your family members.

Many of the physicians who practice at **Louisiana Orthopedic Surgery Center** have an ownership interest in the Center. This ownership enables them to participate in the Center's management, maintain quality standards, and help control medical costs while providing high-quality care.

Your physician's ownership interest in Louisiana Orthopedic Surgery Center means that your physician may receive a financial benefit by performing your surgical procedure at this facility rather than at a hospital or another similar facility. You are hereby advised that you have the right to choose to have your procedure performed at an alternative facility. Should you elect to do so, your physician will make the necessary arrangements in accordance with your preference.

The following physicians are investors in Louisiana Orthopedic Surgery Center, with each holding a 2.71% ownership interest in the facility.
